EXPERIENCE

Web Development Immersive Fellowship

General Assembly | Boston, MA | May 2018 - Aug 2018

Completed General Assembly's 12 week, 500+ hour Web Development Immersive program. Built multiple single page applications (SPA) within 5 days each:

- **Burger Builder** is a dynamic SPA which allows authenticated users to build a burger, checkout, and review their orders (no transaction occurs). Built with React.js, Redux, Axios, React-Router, Firebase, Jest, and Enzyme.
- **Into** examines user data from various streaming services to generate a 3x3 image of that user's top treamed content. Successfully persists 3rd Party API data via OAuth. Built with Heroku, Ruby on Rails, Ember, and Bootstrap.
- **Jot** allows users to jot down their ideas and organize them later ia drag and drop. Built with Heroku, Ruby on Rails, Handlebars, and Bootstrap.
- **Sserpdrow** is a recreation of Wordpress where users can publish blog posts or web pages. Built with Heroku, Mongo, Express, Handlebars, and Bootstrap.

Associate Software Developer

Gartner, Inc | Stamford, CT | Jan 2016 - Mar 2017

Responsibilities: Front-end Web Development, Email Blasts, App maintenance, and UI Design. Major projects included:

- **Gartner for Marketing Leaders** - client facing key component for lead generation. Successfully designed, developed, and deployed site with Hippo CMS.
- **Digital Marketing Transit Map** - maintain and update this XML-based JSP SPA with over 2.5 million unique clients. Debugged functionality issues.

Graphic Design Internship

Images Unlimited Communications | Boston, MA | Aug 2015 - Nov 2015

Rapidly produced logos and graphic deliverables for dozens of local restaurants to use on their websites, Facebook pages, Twitter pages, menus, advertisements, and more.

EDUCATION
